| <b>Revision Date</b> | <b>Person Responsible</b> | <b>Version Number</b> | <b>Modification</b>                      |
|----------------------|---------------------------|-----------------------|--|
| 10/11/17             | Carl Araya                | 1.0                   | Initial Document                         |
| 10/11/17             | Carl Araya                | 1.1                   | Continuation of filling out the document |

**Use-Case Name:** 6.0 View Student's Personal Information

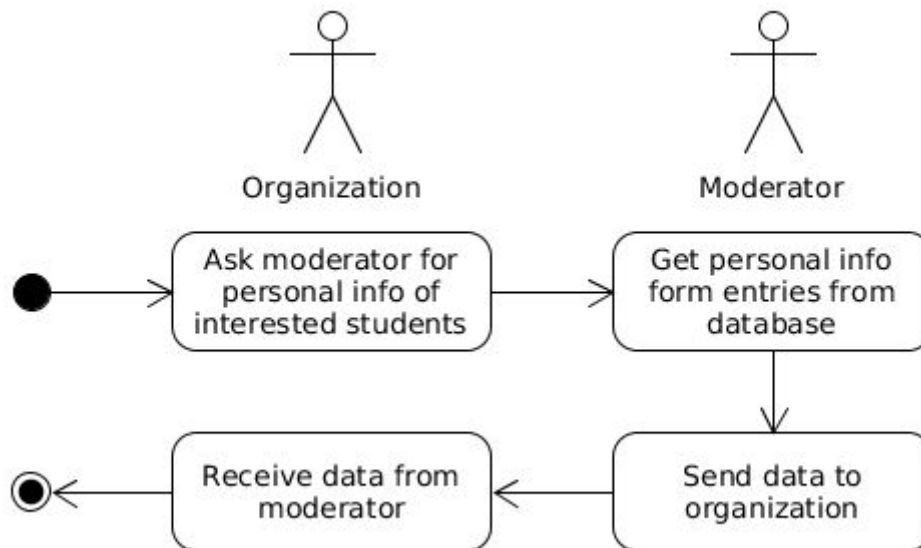

**Description:** Use case 6.0 describes in detail the flow of events and the functionalities involved in viewing student's personal information.

**Preconditions:** The application form must have been provided already.

**Flow of Events:**

| <b>Scenario Name</b>    | <b>Description</b>  |
|-------------------------|---|
| Scenario 1 (Basic Flow) | <ol style="list-style-type: none"><li>1. The org asks the moderator for the list of students that are interested in joining them along with their personal information.</li><li>2. The moderator gets the entries from the database.</li><li>3. The moderator sends this information to the org.</li><li>4. The org receives this information</li></ol> |

*Activity Diagram of the Flow of Events:*

*Postcondition:* NONE

*Relationships:* Use case 5.0 has to be accomplished first before this.

*Special Requirements:*  
NONE
