10/05/17	Nikki Florita	1.03	Continuation of filling out the document

*Use-Case Name*:   1.0 Provide Organization Description

Description: Provide organization description is the use case where the organization gives their information to the moderators to post on the website. There are three situations on this process - one is the straightforward flow, one is when the organization provides additional data, lastly, when not all the data needed is given.

Preconditions: NONE

Flow of Events:

Scenario Name	Description
Scenario 1 (Basic Flow) Student organization provide content for the organization profile	1. Student organization holds internal meeting to decide on content to provide. 2. The data should contain: ● The organization's contact information ● Brief description of the organization ● The organization's goals and beliefs ● The organization's logo 3. The organization sends the information to the moderators for evaluation and approval
Scenario 2 Student organization provides additional optional data	1. The organization may give additional data to show in the website should they wish to. These can be: ● The organization's tambayan if they have ● Photos or videos of event the organization held ● Calendar of organization's upcoming events ● Details of organization's application process (if it is their application season)
Scenario 3 Data for organization profile is not complete	1. Upon accomplishment of scenario 1, not all of data needed are given by the org. 2. The moderator notifies the organization that some information is missing. 3. Scenario 1 will repeat.

Activity Diagram of the Flow of Events:

Postcondition: NONE

Relationships: Required to be accomplished first before use case 2.0 can be used.

Special Requirements:
   NONE
